KAREN M. HOLLIS, CPA

Independent Accountant's Compilation Report

To the Members of the Police Jury Northside Utility District No. 2 Richland Parish Police Jury Rayville, Louisiana

I have compiled the accompanying component unit financial statements of the Northside Utility District No. 2, a component unit of the Richland Parish Police Jury, as of and for the year ended December 31, 2012. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

The management of the Northside Utility District No. 2 is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

My responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist the management of the Northside Utility District No. 2 in presenting the financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

The supplementary information contained in Schedules I, II, and III is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been compiled from information that is the representation of management. I have not audited or reviewed the supplementary information and, accordingly, do not express an opinion or provide any assurance on such supplementary information.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Notes to the Financial Statements
As of and for the Year Ending December 31, 2012

INTRODUCTION

Northside Utility District No. 2 was created by the Richland Parish Police Jury on December 3, 1981. The district is responsible for maintaining and operating a water system and a sewerage collection and disposal system within the boundaries of the district. The district had a contract with the Town of Rayville for water pumping and the sewerage collection and disposal. The district is to be governed by a board of commissioners consisting of five (5) members appointed by the police jury. Each board member is to serve a four (4) year term. The board receives no compensation for their services. The Richland Parish Police Jury was overseeing the operations of the District and no board was present.

In September, 2012, an intergovernmental agreement between the Richland Parish Police Jury and the Town of Rayville was entered and approved by both parties. This agreement transfers all assets of Northside Utility District No. 2 to the Town of Rayville and the Town accepts full operation, maintenance and repair and infrastructure of the district including all billing and collection of user fees, terminating service to users who do not pay for services and any and all other day to day workings and operations of the district. Northside Utility District No. 2 ceased operations as a separate entity with the relinquishing of all assets to the Town of Rayville.

GASB Statement No. 14, The Reporting Entity, and No. 39, Determining Whether Certain Organizations Are Component Units-an amendment of GASB Statement No. 14, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Northside Utility District No. 2 is considered a component unit of the Richland Parish Police Jury. As a component unit, the accompanying financial statements may be included within the reporting of the primary government, either blended into those financial statements or separately reported as a discrete component unit.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Statements

Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments, provides that special-purpose governments engage only in business-type activities should present only the financial statements required for enterprise funds. For these governments, basic financial statements and required supplemental information (RSI) consist of:

- 1. Management's discussion and analysis (MD&A)
- 2. Statement of net position
- 3. Statement of revenues, expenses, and changes in net position
- 4. Statement of cash flows
- 5. Notes to the financial statements
- 6. RSI other than MD&A, if applicable

The Northside Utility District No. 2 is a special-purpose government engaged only in business-type activities.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Enterprise fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operation. The operating revenues of Northside Utility District No. 2 are water sales, safe drinking water fees, installation and connection fees, and other operating income. Operating expenses for enterprise funds include the costs of the services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Deposits and Investments

Cash and restricted cash includes amounts in interest-bearing demand deposits. State law limits the district's credit risk by restricting the district's investments to collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government-backed securities. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. At December 31, 2012, the district has no investments and only interest-bearing demand deposits.

D. Receivables

Accounts receivable consist of amounts due from customers for water service provided prior to year end. Receivables are generally shown net of an allowance for uncollectible accounts. Customer accounts are considered past due when they are not paid by the 15th of the month following the month of services. The customer's meter is locked if amount due is not paid by the 20th of the month following the month of service. Unpaid accounts are written off as bad debts when considered uncollectible by the board.

E. Restricted Assets

Certain resources set aside for refunding of customer meter deposits are classified as restricted assets on the balance sheet because their use is limited. It is the district's policy to use restricted assets first when both unrestricted and restricted assets are available for a specific purpose.

F. Capital Assets

Capital assets, which include land, the water system, tanks, wells, buildings and equipment are reported in the enterprise fund financial statements. Capital assets purchased by the district are capitalized at historical cost. Donated capital assets are recorded at fair market value on the date of the donation. The Northside Utility District No. 2 maintains a threshold level of \$1,000 or more and an estimated useful life of five years or more for capitalizing assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets, if any, is included as part of the capitalized value of the assets constructed.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

> Water and Sewer Systems 40 Years Buildings and Equipment 3-20 Years

G. Compensated Absences

The district does not have any full time employees; therefore it does not have a formal vacation or sick leave policy.

H. Long-term Obligations

Long-term liabilities are recognized within the Enterprise Fund. The district has no long-term liabilities at December 31, 2012.

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures,

and revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS IN FINANCIAL INSTITUTIONS

At December 31, 2012, the district has cash, restricted cash, and investments (book balances) as follows:

Demand deposits	\$36,316
Interest bearing demand deposits	26,826
·	
Total	\$63,142

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. As of December 31, 2012, the district has \$63,142 in deposits (collected bank balances). These deposits are secured from risk by \$200,000 of federal deposit insurance.

3. RECEIVABLES

At December 31, 2012, the district has net receivables of \$0 as follows:

Water and sewer	\$0
Less estimated uncollectibles	0
Net accounts recievable	\$0

The district uses the allowance method of writing off uncollectible accounts. All receivables were turned over to the Town of Rayville in September 2012 per an intergovernmental agreement between Town of Rayville and Richland Parish Police Jury.

4. CAPITAL ASSETS

Capital assets and depreciation activity as of and for the year ended December 31, 2012, is as follows:

As of September, 2012, all assets of the district were turned over to the Town of Rayville per an intergovernmental agreement between the Town of Rayville and the Richland Parish Police Jury.

5. SUBSEQUENT EVENTS

As of issuance of this report, the Richland Parish Police Jury has absorbed the cash remaining in the operating account of the district. The remaining restricted cash, customer deposits, has not been turned over to the Town of Rayville as of the date of this report. The secretary of the police jury is in the process of analyzing the accounts to have an accurate account of the customers in good standing at the time of transfer to the Town of Rayville. Upon completion, the balance of customer deposits in good standing will be remitted to the Town of Rayville and the Richland Parish Police Jury will absorb the remaining amounts.
